

# Esko XPS Crystal is GreenCircle Certified

## ENERGY SAVINGS FOR TRADESHOP

41% energy savings for a tradeshop with an average plate consumption of **13 plates per 8 hour shift** compared to UV bank light exposure.

## ENERGY SAVINGS FOR CONVERTER

59% energy savings for a converter with an average plate consumption of **6 plates per shift** compared to a UV bank light frame exposure.

## DEMATERIALIZATION

Using UV LEDs, the XPS Crystal has **92% waste reduction** of light elements over the total device lifetime. This dematerialization analysis is based on an assessment of **100% mercury-free** UV LEDs compared to mercury containing UV Lamps used in UV bank light frames.
